

Medicinal Chemistry Spring Symposium 2016

March 18th 2016
Boothzaal, University library
Heidelberglaan 3, 3584 CS Utrecht

KNCV
Sectie
Farmacochemie

KNCV mensen • meningen • moleculen

EFMC
European Federation
for Medicinal Chemistry

Program

- 09.45 – Registration and coffee
- 10.00 – Welcome and Opening symposium
- 10.05 – Adam Nelson (University of Leeds, UK): *The Realisation of Activity-Directed Synthesis*
- 10.45 – Mario van der Stelt (Leiden University): *Discovery of in vivo active lipase inhibitors for the treatment of neuroinflammation*
- 11.15 – Helma Rutjes (Pivot Park Screening Center, Oss): *Assay development for ultrahigh throughput screening*
- 11.45 – Lunch and ALV
- 13.00 – Paul Brennan* (University of Oxford, UK): *Chemical Probes in Target Discovery*. *Chas Bountra cancelled.
- 13.40 – Anna Hirsch (University of Groningen): *Exploring Lead-Identification Strategies: Accelerating Early Drug Discovery*
- 14.10 – Hergen Spits (AMC / AIMM Therapeutics, Amsterdam): *Contribution of autoantibodies to successful cancer immunotherapy*
- 14.40 – Short Break
- 15.00 – Steven van der Plas (Galapagos, Mechelen, BE): *CFTR modulators for treatment of Cystic Fibrosis*
- 15.40 – Alexander Dömling (University of Groningen): *Targeting p53/mdm2 and Pd1/PDL1 protein - protein interactions: two uneven siblings*
- 16.10 – Closure and Drinks

Register on <http://www.kncv.nl/farmacochemie>

€30 for members, €60 non-members
